CMS: Kontent.ai, Strapi, Payload CMS

Databases: PostgreSQL, MySQL, MongoDB, Supabase, Redis

Tools: Git, Docker, AWS EC2, Amazon S3, Vercel, Netlify, OneDrive, Linux

Concepts: REST APIs, Headless CMS, Authentication, Microsoft SSO, Role-Based Access Control, Third-Party API Integration, Performance Optimization, SEO, Responsive Design

PROFESSIONAL EXPERIENCE

Web Developer – Strategic Exhibitions & Conferences | Dubai | Jan 2024 – Present

- Develop and maintain event and corporate websites using Next.js and TypeScript, powered by headless CMS platforms including Kontent.ai, Strapi, and Payload CMS.
- Developed a scalable exhibitor management portal used across multiple events with individual exhibitor profiles, supporting 1,000+ users and improving engagement and sales workflows.
- Built Strategic Media Manager, an internal event media platform for the team (see Projects).
- Integrated frontend applications with .NET APIs and third-party services.
- Improved PageSpeed scores by 30% through SEO and performance optimization.

Full Stack Developer – Willowy Solutions Pvt. Ltd. | Aug 2023 – Jan 2024

- Developed backend services using Django, PostgreSQL, Redis, and Celery.
- Built billing and alert management systems for internal business operations.
- Implemented API endpoints and workflow automation.
- Containerized applications using Docker.

Junior Python Developer – AmruthaShala India Pvt. Ltd. | May 2023 – Jul 2023

- Developed modules for a Student Management ERP using Python and Django.
- Generated automated documents such as hall tickets and report cards.
- Implemented PDF generation using PDFKit and wkhtmltopdf.

PROJECTS

Strategic Media Manager | Next.js 16, Supabase, OneDrive, Vercel

- Built an internal app for browsing, searching, sharing, and downloading event photos and videos, with event galleries, a lightbox, and search.
- Designed a zero-copy architecture: files stay in OneDrive share folders and all downloads, including ZIPs built in the browser, stream directly from OneDrive, so file data never passes through the server.
- Kept a Supabase search index in sync with OneDrive through a daily cron job and an on-demand Sync now action.
- Shipped expiring external share links with email capture, Microsoft SSO with an email allowlist, photo likes, a photo-request inbox for event coordinators, and in-browser image compression.

EDUCATION

Web Development Training – Brototype | Apr 2022 – Feb 2023

Bachelor of Business Administration (BBA) | 2016 – 2019
